

SHRADDHA BORASE

Data Analytics

Shraddhaborase28@gmail.com | www.linkedin.com/in/shraddhaborase2810 | Pune, Maharashtra

SUMMARY

Highly motivated data analyst with proven expertise in SQL, Python, and data visualization. Passionate about leveraging data to drive impactful decision-making processes. Eager to apply analytical skills in a dynamic environment and continually enhance knowledge and capabilities in data analytics.

EDUCATION

Bachelor of Technology in Computer

PSGVP Mandal D. N. Patel college of engineering, shahada
2021 - 2024

PROJECTS

Optimizing Steel Manufacturing: Charge Composition and Energy Use

360DigiTMG

Client: Leading Steel Manufacturing Company

Description: Utilized data analytics to optimize material mix and reduce power consumption in steel manufacturing. Aimed to improve production efficiency by 20% and lower energy consumption by 15%.

Technologies Used:

- **Database:** SQL, Excel
- **Programming Languages:** Python (Pandas, NumPy, Scikit-learn)
- **Visualization Tools:** Power BI, Google Looker Studio

GitHub: <https://github.com/Shraddhaborase>

Detection of obesity Using Machine Learning Technique

Organization: PSGVP Mandal D. N. Patel college of engineering, shahada
Academic Year: 2023-24

Description: Developed a system using machine learning to detect obesity from health data. Users can register, log in, and either input text data or use live camera capture for obesity prediction. Compared multiple models (SVM, DT, RF, NB) for accuracy, categorizing users into normal weight, overweight, or high weight categories, and providing health prescriptions.

Technologies Used:

- **Python:** Pandas, NumPy, Scikit-learn
- **Frame Work:** Tkinter
- **Database:** MYSQL

LANGUAGE

English | Marathi | Hindi

STRENGTHS

- Analytical Thinking
- Effective Communication
- Team Collaboration
- Problem Solving
- Decision Making

SKILLS

- Python Programming
- Data Visualization
- Statistical Analysis
- Advanced Excel
- MS Power BI
- SQL

CERTIFICATES

Professional Course on Data Analytics
360DigiTMG

Joy of Computing using Python
NPTEL

Data Visualization using Power BI

Certificate course on Advanced Excel

Basic course on SQL

Data Visualization using Tableau

Python Programming
